

Mesothelioma, updates in treatment and research

Thank you Dr. Creelan for turning us on to this webinar on treatment approaches for mesothelioma. We look forward to other LATTE programs in the future. Be forewarned Dr. Stevens suggests taking a frosty beverage with the discussion. 😊

Updates in Mesothelioma Treatment and Research

Dr. Craig Stevens, Senior Member with Department of Radiation Oncology and Section Head of the Mesothelioma Research and Treatment Center at Moffitt Cancer Center, provides updates in treatment options for Mesothelioma patients in a recent web-seminar. Dr. Steven's presentation highlights new techniques in radiation therapy and the importance of a multi-disciplinary approach to treating this disease. Moffitt Cancer Center's Lung and Thoracic Tumor Education (LATTE) program provides ongoing education to raise awareness about the important issues surrounding thoracic cancers and research, empowering patients and families to make informed decisions.
