

## **Testing and Early Diagnosis**

### **The Importance of Breast Cancer Screening**

**Dr. Medhavi Gupta - Oncologist, Roswell Park Comprehensive Cancer Center, Assistant Professor of Medicine, Brown University**

**Maria Christian - Head of Partnerships and Programs, Global Resource for Advancing Cancer Education (GRACE)**

Maria            Thank you for the insightful discussion. Do you have any parting comments?

Dr. Medhavi    I think I would say that prognosis in breast cancer is highly dependent on how early the breast cancer is diagnosed. Therefore, getting a screening mammogram is so important. And if you're somebody who hasn't gotten their screening mammogram by now, I would strongly urge you to schedule it as soon as possible. I think this is one of the best things you can do to take care of yourself.

Maria            Thank you! Thank you so much for joining us and thank you for being here. I'm sure this will be very insightful and helpful to our patient audience

Dr. Medhavi    Thank you for having me, the pleasure is all mine.
