Dear Fellowship Program Director,

By way of introduction, I am the Executive Director of the Global Resource for Advancing Cancer Education (GRACE; cancergrace.org), a non-profit organization founded by leading Thoracic Oncologist, Dr. Howard (Jack) West, in 2008. GRACE's mission is to provide expert-mediated information directly to cancer patients and their caregivers to empower them to become direct partners in their cancer treatment.

I am eager to share that GRACE is launching a **new initiative** that will provide a unique opportunity for a select number of **oncology fellows** to serve as **featured contributors** of our educational content on our website.

GRACE Fellows Ambassador Overview

This will be a nomination-only program open to all oncology fellows. GRACE's designated committee will review the nominees and select 2 participants for the honor of participating in the 2019 program.

Benefits of Participation

Selected fellows will work closely with national and international leaders in various fields of oncology to develop new educational content for patients across a range of platforms that will help them become established emerging contributors in their fields of interest. They will receive training on digitally distributed content and social media, and their work will be highlighted and shared by the internationally recognized non-profit GRACE, along with its network of established leaders in the oncology community and board members with an array of interests and connections. Participants will receive a stipend of \$5,000 as well as paid training in doctor-to-patient/family and broader communication in the field.

Ideal Candidates

We are looking for oncology fellows (ideally in their second or third year) with a particular interest and passion for communications, patient education, and for those who are simply looking for a way to give back to the oncology community. Ideal candidates should have strong written and oral communication skills as well as a proven ability to stay abreast of the latest advances in cancer medicine.

Nomination Process

If you have a fellow in your program who you believe would welcome and excel at this opportunity, we invite you to please nominate this individual for consideration. All nomination forms must be submitted by **March 30, 2019** for consideration. Please note that nomination does not guarantee selection into the program as the number of slots for this year will be contingent on grantor funding.

Any questions, please contact me at ABickleman@cancergrace.org or 888-501-1025 x 1.
