

# Global Resource for Advancing Cancer Education

## Letter from the Executive Director

We hope that all of our patient community members are safe and healthy right now. All of us here at GRACE are doing well and want you to know that we remain here for you! GRACE staff have been very busy in the first months of 2020 continuing to produce and publish some amazing new content for the cancer patient community. Here are some highlights; check 'em out!

### **Blood Cancers Video Library**

This series of 6 new videos covers updates from ASH 2019 and topics covering the prevalence, diagnosis and therapies for blood cancers.

### **Lung Cancer Video Library**

We have produced 25 new videos for this Library which will be released over the next several weeks featuring some of the top oncologists in the country discussing the latest information on this disease.

### **COVID-19 Community Concerns**

This series of videos addresses concerns shared by the cancer community in regard to COVID-19. Series consists of videos in English and Spanish.

### **Webside Manner**

In this time of social distancing and limiting clinic exposure, the sudden need for telemedicine and web consults is perhaps changing the future of medicine on a faster pace than we have previously thought possible. In this three part series the doctors discuss a wide range of topics surrounding the use of telemedicine and potential challenges for providers and patients alike.

### **Spanish Lung Cancer Video Library**

10 new videos were recently added to this library covering critical information about screening, immunotherapy, targeted therapies, liquid biopsies and more.

### **GRACEcasts**

GRACE's podcasts are published every Wednesday and cover a wide range of topics of interest to the cancer patient community. Subscribe to our podcasts and enjoy your weekly educational content in small segments by world-class faculty.

GRACE's live patient education programs, the **Targeted Therapies Forum** and **OncTalk** are being converted to virtual programs for 2020 where patients can easily be on a livestream and still enjoy the amazing content presented and ask questions in real time. Watch for details coming soon!

More than anything, we want you to know that GRACE is here for you. With over 1 million visits each year, our website provides critical, timely information in small bits that are easy to find and understand and our Forums are a great place to interact with other patients and caregivers. Many businesses you depend on may still be closed, but we are here and we remain to be your source for credible, easy to understand cancer patient education.

Amy Bickleman  
Executive Director

**Thank you for being a part of the GRACE Community!**
