

"You are providing an incredible service to those going through the worst time of their lives, be they patients or caregivers." -- GRACE Member

GRACE is a nonprofit organization that was developed to provide a critical educational supplement to the information provided by one's own medical team. GRACE provides expert-mediated educational content to educate, empower, and enable patients, families, and caregivers to consider and discuss management options with their medical team.

Please support the advancement of cancer education for patients, families, and caregivers and respond to this opportunity today.

Global Resource for Advancing Cancer Education

Education is Medicine

Those words have meant more this past year than ever, perhaps. With so much changing so rapidly in the world of medicine in 2020, empowering you to be a partner in your medical care through education about treatment options is an absolute necessity. We are honored to be that platform for you.

2021 Will Be an Exciting Year!

- Expanded Video Content Library
- New Articles
- Weekly Podcasts
- Educational Information about the Clinical Trials Journey
- COVID 19 Patient Education Program
- HPV Advances
- Testing and Early Diagnosis Education

GRACE has persevered

With your support, GRACE has persevered since 2007, bringing you the most current and emerging educational content to assist in your cancer journey navigation.

This year, in addition to our robust videos, articles and podcasts covering a range of topics about several different tumor types, we made sure that you had the facts about COVID-19 and how to move into the "new normal" in the most clear and safe way possible.

We missed seeing you in person at our two live events, but were thrilled to have the opportunity to convert our events to an online live format and meet you all virtually at our Targeted Therapies Forum and OncTalk this year; we look forward to seeing you face to face again soon!

You are what drives us

~**YOU** are what drives our world-class faculty to continue creating educational content to help you make the best choices about your care.

~**YOU** are what inspires us to continue our mission every single day.

~**YOU** are part of our GRACE family, and we're so grateful for your continued support.

We are very proud of what we were able to accomplish this past year with your help.

GRACE doesn't hold golf tournaments or galas to support our work, rather, we depend on your support during our End of Year Appeal. **Please consider supporting us again this year in whatever donation amount fits your giving goals. We need your support so that we can continue to provide the most current and emerging treatment options for cancer patients.**

THANK YOU SO MUCH FOR YOUR SUPPORT!

The Global Resource for Advancing Cancer Education (GRACE) helps thousands of people living with cancer become educated about their disease -

thanks to the generosity of people like you.
